Doro Watch

Sleek and stylish - uncomplicated joy

Doro Watch

Designed to be easy to use and control

Unique Watch interface

A visually stunning interface, focusing on one icon at a time with large icons and text.

Dedicated assistance key

This means help is always within reach, providing peace of mind for both you and your relatives.

Water resistant

IP68 classified, makes it protected against dust and water

Comfortable to wear

Ergonomic design and light weight makes it comfortable to wear it all day (and night) everyday.

Convenient charging

Cradle for easy charging. Gives one week usage in less than 2 hours

Unique Doro DNA

Easy to read

The large, high contrast display is clear and bright. It has been designed to make it easier to read with big icons and text.

Easy to use

The Doro watch comes with a unique and intuitive watch interface and application, simple and guided navigation and guided instructions, for a quick and easy set up

Peace of mind

Take part of the 'full-Doro-experience'. And allow the dedicated assistance key on the watch to operate as an extended response by Doro button with your Doro 8100/8110 or later.

Doro companion app 😘

Big icons & Text Easy dashboard Full integrity with local storage

Full control, Easy to use

Use the Doro Watch app on your smartphone to track your activities and exercise, steps and distance travelled as well as your night's sleep and heart rate across the day.

The app allows you a larger screen to see the additional details rather than trying to see it all on the watch face. Giving you greater flexibility and control of your health and well-being.
